

**Features**

Open is a relatively compact and elegant, contemporary collection of soft seating, with chair and sofa sharing a formed steel rod, base-frame aesthetic. Angular and striking, they lend a physical lightness to the appeal of the design. The moulded seat shells and cushions with 'bull nosed' edge feature, economic detailing and tailored upholstery, provide great comfort, precise shape, a simple pleasing form and visual slenderness. Additionally, the chair can be specified with a headrest and mounted on an equally striking, polished, 'four-star' cast aluminium swivel base. This slender aluminium base also supports a range of tables, using a choice of tops from round to more sophisticated 'super ellipses', to complement the seating.

**Finishes**

Wire frames are finished in polished chrome as standard with white plastic feet. Swivel, cast base columns are also finished in polished chrome and the 4-star aluminium casting is polished as standard. Open can be upholstered in a wide range of contract quality fabrics or leather, but these ideally require a degree of stretch.

**Design: Luke Pearson and Tom Lloyd**

Luke Pearson and Tom Lloyd who first met while studying Furniture Design and Industrial Design respectively, at London's prestigious Royal College of Art, did not form their multi award winning product and furniture design consultancy, until 1997, having first spent a number of years working independently of each other for other highly acclaimed design studios.
